Description

After The Italian Sea Group SpA completed the acquisition of Perini Navi SpA, we are pleased to unveil the new sailing superyacht yacht from the world-renowned Perini Navi brand, which is currently under construction, at the Perini Navi shipyard in Viareggio.

With aluminium hull already completed, the new generation sloop-rigged PERINI NAVI 47M S/Y for sale measures 154' 2" in overall length. This sailing superyacht presents classic Perini Navi layout featuring the extended flybridge protected by continuous glass window, with two helms, al-fresco dining, bar and sunlounge. Her future owner still has the opportunity to slightly modify the living facilities and choose between 4 or 5 cabin layouts and the interior design.

Conceived as a fast-cruising sloop, this new construction project carries Perini Navi signature centreboard that keeps the yacht stable while sailing. Two-level cockpit with two separate relaxing areas gives access to foldable swimming platform, while the tender garage is located fore.

Modern, elegant and durable, the PERINI NAVI 47M S/Y for sale, represents a sum of innovations and inventions, all designed and developed in-house by Perini Navi. This 47-metre modern sailing yacht offers a wider transom for more exterior living space, larger interior volumes, high-tech solutions to facilitate navigation, extensive use of glass and easy sailing.

Both styling and naval architecture come from the shipyard's in-house team, blending modern lines and strong performance. To that end, the sail area is 13,723 square feet (1,275 square meters), complemented by a 205-foot-high (62.5-meter-high) carbon mast with carbon boom and standing riggings. Sloop-rigged, the 47M is very easy to handle. When under power, with the system including a single 715 Hp CATERPILLAR diesel engine, the yacht reaches 3,500 nautical miles of range (Transatlantic) at 10 knots.

The yacht features 4 staterooms, with an optional 5th cabin, converting from an office or gym for 8 to 11 guests. To take advantage of the 34' 7" (10.5-meter) beam, the master suite sits aft below decks.

The master and other areas onboard make use of much larger glass panes than other Perini Navi deliveries so far. The main-deck saloon is one such area, although its biggest attraction is its space utilization. In fact, when the sliding doors to the aft deck are open, it becomes an extra-light and bright, 66-foot-long (20-meter-long) social space that feels like an effortless extension of the cockpit and aft deck with which it creates an open-plan space. Further attractive social spaces aboard the PERINI NAVI 47M S/Y include the beach deck, a retractable fold-down swimming platform, and the 969-square-foot (90-square-meter) flying bridge. The transom has been radically innovated and accessing the water is easier than ever.

The 47m S/Y is a project for which the yard believes strongly from the very start. This is why they accepted the challenge of starting construction on spec and her completion and delivery is set for summer 2026. This sailing vessel should carry ABS  A1 Commercial Yachting Service -  AMS - LY3 Commercial Class.

"Built to the market's appreciation for these new generation sailing yachts which meld innovative yet powerful performance under sail with a unique standard of comfort, Perini Navi can now offer the market a complete and unprecedented range of sailing yachts to meet clients' differing needs".

Perini Navi has evolved its classic keel design and this new version offers superior performance in addition to delivering a shallow draft to allow the yacht venture closer to the coast.

The S/Y 47m exterior lines combine innovation with tradition and are strikingly sleek and elegant, very much in line with the yard's signature style.

Please click on the « Other Details » tab for complete details of this New Construction Sailing Yacht for Sale.

Note: This is a brand new yacht under full manufacturer's warranty.

Delivery: Summer 2026.
